What's New In?

Password Reveal Pro is a tool which can reveal what is hidden within * symbols. If you can't remember the secret sequence of letters and symbols you know to enter, Password Reveal Pro might help you. Password Reveal Pro allows you to reveal the passwords stored in programs which require users to input passwords into text fields or dialogs, including Internet Explorer. Are you having trouble accessing one or more of your passwords? Do you need to reveal the passwords of Internet Explorer favorites? If you've forgotten your passwords, Password Reveal Pro may help you. Password Reveal Pro lets you view and enter passwords in text boxes in any program, including the most popular browsers: Internet Explorer, Google Chrome, Mozilla Firefox, Safari and Opera. This software will be very helpful when you're using web browsers that generate long hidden password fields to store your passwords. Password Reveal Pro will also let you enter passwords in pop-up windows that sometimes come up when you're trying to fill out forms. This program will reveal the password even if the form is used for many different websites and you're not using a reliable password manager. Password Reveal Pro is easy to use. All you have to do is drag the lock icon from the tool window onto the password fields and hit the reveal button in the toolbar. Password Reveal Pro won't search through your computer, so you needn't worry about privacy issues. You can use Password Reveal Pro to view and enter passwords for applications stored in your password manager or to reveal passwords that you have stored in Internet Explorer.

Password Reveal Pro Features:

- Works with all web browsers that generate text boxes with passwords (Internet Explorer 6, Internet Explorer 7, Internet Explorer 8, Google Chrome, Mozilla Firefox, Opera 9, Safari 5, and Mozilla 1.9).
- Shows the passwords that you have saved in your password manager.
- Shows the passwords stored in applications that use the Windows Clipboard as a temporary storage to remember your passwords.
- Shows the passwords in all available password field windows.
- Shows the passwords that are usually hidden in the web page when you're filling in a form.
- Allows you to view and enter passwords in text boxes in any program.
- Will not search through your computer for passwords.

Password Reveal Pro has been installed in your computer hundreds of times and you can trust it. You will never have to worry about safety again. How
