The media content is absolutely free and this application is absolutely FREE which is in compliance with the conditions of the API Licence. 1.Click DVDVideoSoft Free YouTube Download Premium 6.5.76 Full Version! "Add to Playlist" to add this video to a playlist.2.Click "View all subtitles" to view all the subtitles of this video.Q: Split only first line in a text file (Java) I have a large text file which has information in the form of cities, their associated country and the year they were created. Since the text file has a lot of lines, I only want to read the information of the first line. After reading the whole file, how can I read the first line only (split it as cities and years)? If I get it in an array, how can I put it inside a map? (e.g. key [0] would be city, key [1] would be years). I am new to
