The Elden Ring is a story that has lasted a long time. The world that used to be full of fantastic legends has been mysteriously and gradually disappearing. In the midst of this social crisis, some mysterious people appear in the land and cause chaos, and the people are left in a state of helplessness. When the land is liberated, the world again gets the light, and a new legend is born. At the core of this legend is the Elden Ring, the object which the people were desperate to recover... HEY GUYS!! I just got the game this evening and have had this game for a few weeks now. I LOVE it. As a fan of Rune Factory, I am in love with the Elden Ring series. I didn't expect to like this game so much as it seems so different from the other Hoshin Engi games and it does seem to stand on its own. There aren't any chibi characters here. Every character looks awesome and doesn't look out of place. As far as the music, it is truly epic and fits the game nicely. The graphics are amazing! The custom areas in the game are extensive and change depending on the difficulty level. The game doesn't have a story but there is a lot of customization regarding the game to come out in the US. By: edeljoker There are still plenty of people in the EU who have yet to experience the complete adventure of the Elden Ring. We are finally home with the game and it does not fail to impress. Storyline wise, the game is an interesting tale of a man and his quest to regain his lost powers (he named it Elden Ring). The story is told in a series of flashbacks which appear when you explore areas called Relic Dungeons. These dungeons are special areas consisting of multiple floors with varied enemies and tasks. The only way to progress is to clear these dungeons are special areas consisting of multiple floors with varied enemies and tasks. For the complete content of the game, including character descriptions and background, check out the link below Link: The hidden backdoor of a company? Initially, I approached Comieco, myself, and asked, "What's wrong with this, boss?" They replied, "It's very suspicious, and you shouldn't be doing this." I decided to do it anyway. A few minutes later, I requested the password of the company. — The world of the online game, held by Comieco, is of a completely different era from our own time. Though the technological revolution is progressing, the industrial revolution is backtracking. And I was rekindling a new age. I was going to make the internet as a weapon to tear apart the upper crust of society. I was going to act as if I was a great hero who had the power of a God. — I have no idea who brought me into existence. No doubt, I was born by "illicit" means, but maybe that's what's best for me. I've lost all chances of being happy, so I must succeed at everything. I must become an Elden Lord. Originally, this time-travel game was just for fun, but since it was... a problematic, I took it upon myself to rescue the young girl. She was living under the control of an ugly man. Well, it's fine. But I'm my own person. I will only become a hero if I save the girl. If I become the hero, I'll treat that man as a villain. If I become a villain, I'll turn around the world in my image. If I become a little hero, I'll become a great hero in this world. — That man was an official of the police, the son of the head of a prominent family in the upper crust. His father was, as he was a police official,

Downloaded from the Fanpop serverl used to play this game when it was first released. It was fun.I get a little disappointed whenever I see it being listed on Free internet but never released so I never played it. I really love the concept and setting in this game. I just wish it got a better translation but that sucks.. So I guess there are one or two people who would like to have a decent vanilla version of the game.
