The world of Elden Ring game has been updated to version 1.3.0, and now you can use the following functions!

1. New Skill System of the Equipment  
The skill system of the equipment has been revised to allow the users to acquire new skills freely according to their own play-style and scenario. - Skill Perf. of the Equipment  
We have provided a concept of "Skill Perf. of the Equipment," which is obtained when using an equipment, by which the users can freely acquire skills during battle. The equipment can be acquired at the store, using gold, or obtained through the story or missions. Furthermore, you can acquire a variety of skills in a quest, by levelling up your character.
2. The Aftermath System of the Quest  
In the aftermath of the quest, a card is obtained when the quest is accomplished. We have added a function

---

that allows you to equip the card when there is a rune card in the equipment. - Readies and Side Effects of the Quest The readies and side effects will be added to the quest card, and equipped appropriately when the quest is completed. 3. The "World of Elden" System The "World of Elden" system allows the users to freely explore a variety of large-scale continents, and it is performed during the mission. This creates a vibrant and luxurious experience with an impression of being in a different world. 4. High Concept of the Battle Map and True-to-Life Graphics On the battle map, various kinds of monster and NPC will appear in a quest. New forms, locations, and battle situations that were not observed in the previous version are added. We have updated the graphics of the monster group and NPC, and we have provided a background story that allows the users to understand the

---

interrelationship between the creatures and environment. 5. The Status of the Compatible Devices and Adjusted Interface We have fixed some bugs in the devices, and the interface has been reworked to improve the quality of the experience. In addition to these changes, we will continue to improve the features and content of the game through regular updates.
