

Erotic Empire Pc English Translation

Download

The game revolves around the creation of a multi-million dollar pornography and erotica industry. The character design was done by German comics artist Carsten Wieland. The developers of such games as: 'The Godfather', 'Battlefield: Bad Company', 'Medal of Honor: Warfighter', 'S.T.A.L.K.E.R' and others took part in the creation of the game. The game features a quest system based on storylines. There are five main plots in the game: - Entry into the world of porn business, where the main characters become the protagonists of adult films. - Immersion in the world of pornography, where the player becomes an employee of the porn industry.
