The first major release of AutoCAD, AutoCAD LT, was released on September 23, 1991 and allowed users to easily create 2D drawings. AutoCAD 2004 was released on December 15, 2004, with a major revision to its user interface, including a flexible, 2D, draft-specific tabbed interface (User Interface Guide [2003]). AutoCAD 2008 and AutoCAD LT 2008 followed on June 1, 2008, with additional productivity features such as block libraries and palettes. AutoCAD 2010 was released on October 18, 2010, and added 2D block-based rendering (BBR) and the 2D wireframe feature. In 2012, AutoCAD 2013 was released, with enhancements to 2D drafting, including line-based draft workbenches, block tools, object snap, and other features. AutoCAD 2014 was released on September 12, 2014 with new 3D capabilities, product lifecycle management, and a 2D draft performance feature. AutoCAD 2015 was released on September 16, 2015, with enhancements to 2D drafting, including the new 2D draft toolbars, improved object snaps, and the Revit-style Block Palette View (User Interface Guide [2015]). In 2016, AutoCAD 2017 was released, with a completely redesigned user interface (User Interface Guide [2017]). CAM is the acronym of CAMTER for Computer Aided Machine Tools. The CAM system usually is a machining application to machine a part automatically. CAMTER The CAMTER (Computer Aided Machining Tools Enterprise) project was started to develop a CAM system which integrates the machining functions of some commercial CNC machines. The project was initiated in 1994, funded by TKM 1997, and is jointly operated by: The Community The CAMTER community is a cooperative effort for the development of a common computer-aided machining environment. The project promotes interoperability between the CAD/CAM systems and the collaborative coordination of all projects. It includes: The CAMTER community is formed by: a consortium of CNC machine manufacturers (e.g. HPC or their OEMs), a community of users who use CNC machines (e.g. companies of this sector), CAMTER, the manufacturer of the CAM system, and the TKM, the owner of the technology. The CAMTER community is organized in: CAMTER Users CAMTER Users (CU) are the users of the CAMTER community, using either CAMTER or CAMTER-like CAM systems. CAMTER users can be either: Manufacturers Manufacturers are the users of
