This is the

process of first heating or “treating” a mold to a temperature well above its glass transition temperature to first, soften or melt the mold and then, forcing the softened mold into contact with a molding surface, to cause the softened material to flow into the mold and cool. The product may then be ejected from the mold. After an appropriate cooling time, the mold is opened and the product removed. Depending on the specific polymer being molded, mold temperatures from about 150° F. (60° C.) to about 400° F. ca3bfb1094

Rhinosport has asked former rugby union star Richie McCaw to front a campaign to stop tourists jumping into rivers and lakes in New Zealand. The charity aims to introduce a raft of new laws, such as a ban on water skiing, to New Zealand. It is also proposing to introduce a ban on jet-skis and giving people two strikes on their driver's licence if they have been fined or admitted to a probationary hearing for drink driving. Sir Richie, who holds world heavyweight boxing title of world champion in 1998 and rugby union title in 2011, has met with officials in a bid to convince New Zealanders that the country is heading down the wrong path. He told Radio New Zealand he had no problem with tourist-only spots in New Zealand. "If people want to go out and enjoy themselves, that's their prerogative," he said. "I think they need to travel here and see this beautiful country. "They need to take a photo of the gumtrees, the pristine beaches, the amazing scenery. "Don't jump into rivers - that's not something I would have thought in the 1980s. "But it's part of our growing up in the 21st century." Sir Richie said the new proposals will help protect New Zealand's scenic rivers and lakes. "I think it will definitely help to protect our rivers and lakes," he said. "There are a lot of rivers in New Zealand, and they are beautiful, and they are important. "There are a lot of people who are upset about the idea, and it has come up a lot in the past couple of years. "But we have to take the long-term view." Sir Richie has called on the public to speak out and give their opinions on the new laws. "If I am going to be held accountable for this, it's got to be the people of New Zealand. "I am going to tell them about it - there will be a roll out, and then it will be up to them to comment." Click on the video player above to watch BBC news report.Q: How to
