Re: EclipseLink: Cannot connect to Oracle database I solved this problem by deleting the oracle/maxmail tables in the database. This previously worked and seems to still work for all databases. I'm not sure how I should have done this, but hopefully this will work for someone else as well.

vast world, we have added a new map. In the game, it is possible to freely travel between the Open Field, Chain Dungeon, and Server. As you explore the world, the joy of discovering a new spot awaits you, and that will surely become an exciting gameplay experience. In addition, when you're playing as a multiplayer character, there is a new world map that allows you to constantly enjoy the online aspect.
