[Story] The Lands Between, also called the Lands Between the World, is a world in which the ends of the world coincide. The civilization in this land of darkness and death is the Elven, living off of the land and the resources it provides. With the support of the Elven, the "new men" landed at night and destroyed the Elven' heaven. With the Elven being taken out of the sky, the Elven began disappearing; and, out of a desire to pray to the Elven, the new men inflicted their own demonic blood on the Elven, turning them into beasts. When the Elden Ring, named because they are "the nobles of the Elven", arrived on Earth, they took responsibility for the Elven as to lead them away from the new men and restore the Elven to their original glory. Almost 14 years later, the Elven have tried to put an end to the bloodshed, but have been returned to hell by a third party. \*An epic drama in fragments. \*Unique online play
