The exact intensity of color in images and videos can be modified according to personal preference and mood About EyeBag - Red Light Filter: The intensity of red light can be adjusted to suit your preference Description:EyeBag - Red Light Filter (2.0.0) Apk Mod is an application that lets you adjust the Color Variation and intensity of red light in photos and videos taken with your mobile phone camera. The application is designed to allow you to significantly improve your photo editing experience. Key Features: 1. Adjust the color variation and intensity of the Red light filter to change the color of your photos and videos 2. Apply an effect to your photos to make them appear more crispy or to give them a retro look 3. Share your photos with your friends or post them on a social networking site. Whether they are taken in the real world or through a digital device, the pictures produced by the camera on your mobile device invariably leave a lot to be desired. Sometimes they are dark or even brown, there is a lack of brightness and may even have a distorted appearance. EyeBag Red Light Filter is the perfect solution to all of your photo editing woes. The app offers an extensive library of filters that allow you to edit your pictures in a variety of ways. Whether you want to soften the sharpness or give your images a unique retro feel, this application has got you covered. With the Red Light filter in

EyeBag you can adjust the hue, contrast, brightness, saturation and hue to suit your personal preference. You can even adjust the light intensity to enhance the overall look of the image. This application is ideal for any kind of mobile device - iPad, iPhone, iPod Touch, Xperia - and it even comes with a powerful set of tools to significantly improve your editing experience. In addition to the Red Light filter, you can also adjust the various color variations with the help of EyeBag. If you are a seasoned pro at editing your pictures and want to take the process to the next level, you can apply a Multiply effect to your images. This will ensure that every part of your photo has enough coverage and will look sharp. You can also create a more retro look with an effect called desaturated which will give your images a vintage feel. The color filter in EyeBag allows you to adjust the color to suit your personal preference. There are four different types of color: Black and white, sep

The House voted Wednesday to extend the Production Tax Credit for wind and solar power through 2016. The bill also extended the loan guarantee program through 2016 for wind power. The Department of Energy loan guarantee program provides subsidies to developers of wind and solar power in a bid to increase energy production while creating jobs and lowering electric bills. The program has faced scrutiny for some of its spending, which has ballooned by 50 percent in just three years. ADVERTISEMENT Boehner’s proposal would renew the program through 2018, but at a fraction of the current cost. The House passed the original version of the bill, which provided \$30 billion in subsidies through 2016, with a vote of 344-79. Solar and wind power industries applauded the latest decision. “The House has made a powerful statement about its commitment to clean energy by voting to extend
