All features are more powerful than ever before. FB Cursors for IE is the extension that you need for those days when you want a few extra mouse cursors. Click the "Start" button to install FB Cursors for IE and save yourself trouble. Bug fixes and optimizations. CSS Exif Editor is a browser extension to edit EXIF metadata (e.g. details on an image's orientation, camera make, model, etc.) for all web browser programs that support editing of metadata. CSS Exif Editor Description: CSS Exif Editor is a browser extension to edit EXIF metadata (e.g. details on an image's orientation, camera make, model, etc.) for all web browser programs that support editing of metadata. The extension will display an INSECURE warning every time EXIF data is displayed for an insecure page. A cookie will be set and used by the extension as user preference each time a page is loaded. You can simply click "Allow Exif Editing" to continue, or simply click "Never Show Exif" to disable EXIF editing for that site forever. All features are more powerful than ever before. Mocha is a cross-platform unit testing framework for JavaScript. Mocha Description: Mocha is a cross-platform unit testing framework for JavaScript. Tests written using Mocha are run in a separate browser tab so as to not slow down your browser during development. Mocha includes a module system, so it is very easy to bring your existing functionality into the world of unit testing. Mocha runs under node.js. Perfect List for Facebook is a great Facebook Tabs extension for Mozilla Firefox. It doesn't just load your "Chats" tab and show your "Friends" for Facebook, it also loads your "Photos" and "Rivals" tabs with either "friends" or "people you are competing with" depending on how you use Facebook. Perfect List for Facebook Description: Perfect List for Facebook is a great Facebook Tabs extension for Mozilla Firefox.
