## Sencha Architect Activation Code

Requires iOS 6 or later. If you are running an earlier version of iOS, this is compatible only with iOS 7 and iOS 8.

Download, Account, Archive, Installation,

The installation software for Sencha Architect v3.x will be available within the Sencha Software Hub.

sencha animator v2.3 build 542 new 2020.. Sencha

Architect for Mac OS X. Sencha Architect is a powerful cross-platform development tool that offers a visual experience

for programming web applications, hybrid apps and

enterprise. Builds Navigation.Q: NSURLConnection Upload

of binary data throws error : Inappropriate ioctl for device I

have read other posts about this issue but I'm still getting this error and I cannot seem to find the cause. I'm currently using NSURLConnection to upload some data to a server.

The code looks like this: NSMutableData \*data =

```
[[NSMutableData alloc] initWithLength:someBytes.length];
```

```
... set data from another object (someBytes)...
```

```
NSMutableURLRequest *request = [[NSMutableURLRequest alloc] init]; [request setURL:[NSURL URLWithString:path]];
```

```
[request setHTTPMethod:@"POST"]; [request
```

```
setHTTPBody:data]; NSOperationQueue *queue =
```

```
[[NSOperationQueue alloc] init]; [NSURLConnection
```

```
sendAsynchronousRequest:request queue:queue
```

```
completionHandler:^(NSURLResponse *response, NSData *data, NSError *error) { if (error) { NSLog(@"%@" ,
```

```
error.debugDescription); } else { NSLog(@"done"); } }]; I
```

also tried setting the HTTPMethod in a different way:

```
[request setHTTPMethod:@"POST"]; Here are the logs in the
```
