1. Story HOW ARE THE MAIN CHARACTERS OF ELDEN RING INTERESTING? The story begins with you being hired to become an apprentice to become an Elden Lord. In the future, the world is at war, and a powerful Chaos has been born... A warrior called the Hero shall slay this monster and lead the world to become a Calm. You, the person called Tarnished, are instructed to become this brave and wise warrior. 2. Character Customization: How does the background of a new era affect character design? The background of the new era is a science fantasy that brings the Uruk Age that lasted around 4,000 years ago and the land of Etea that was influenced by the ancient cultures of the Japanese, the Chinese, and the Indians. You can mold your hero to your own play style. Regardless of the customization or the character look, you will receive an experience that can only be acquired in a fantasy RPG. • History: A new era brought about a significant change in the world. Elisis, a huge continent separated from its surrounding islands, appeared. The world of the present was once divided into seven enormous continents, and this is the place where the Hero will sail. A great upheaval of the world caused the continents to be separated and new islands to be created. A continent like Elisis appeared and called forth the Hero of the time from an unknown location. The Hero may now take a path from Elisis to Etea or explore a vast world. 3. Character Customization: How does the background of a new era affect character design? The background of the new era is a science fantasy that brings the Uruk Age that lasted around 4,000 years ago and the land of Etea that was influenced by the ancient cultures of the Japanese, the Chinese, and the Indians. The age of heroes has dawned. A generation of heroes was born in four continents. They protect the scattered people of Etea as they travel together to the lands of the continent called Hildalgo, the lands of the desert, the lands of the snow, the lands of the night, the lands of the sun, and the lands of the sea. You are the first-generation hero from Etea. 4. Skill System and Action Point: How does character development in the game affect gameplay? The skill system of Tarnished will be different from that of other fantasy

[^8]: See Appendix \[sec:6.2\] [^9]: Note that because we are considering an adjoint-based framework, the discrete-time Lagrangian multiplier $x_t(\gamma)$ is considered as the input (u_t). [^10]: The use of a parametric function for $x_t(\gamma)$ is consistent with the use of a parametric function for $\lambda_t(\gamma)$ in the case of a fixed-point framework. [^11]: Parametric extension is a typical choice for function approximation. Indeed, often in a Lagrangian framework, the approximated function, $x_t(\gamma)$ is chosen to be a parametric function defined on the parameter γ . [^12]: When the FBSDE is defined in the primal space, y_t is evaluated on the optimal trajectory z_t and \widehat{y}_t is defined on \widehat{z}_t . [^13]: This is the case in Section \[sss:1\] where we construct the model from a financial application. [^14]: In general
