Why ViviEon? ViviEon is intended to add a bit of extra challenge to match-3 puzzle games. It's a standard match-3 game in most aspects, but also adds: - Not using the touch controls gives you more room for strategic planning. - Infinite modes. - The ability to choose different colour layouts. - The possibility to make hard levels. - The ability to play on huge maps, where you can only win or lose! - It's just a bit of fun! Learn more about ViviEon: Facebook: Twitter: ViviEon is a chill match-3 puzzle game. Unlike a regular match-3, blocks won't disappear the moment you match them. Instead, you have a set number of moves to match as many blocks at once as you can. When you're happy with your matches (or you've run out of moves) end your turn to remove all matched blocks simultaneously. When your next turn beings, a new set of blocks will fall in to replenish your supply. Should the stack of blocks ever reach the top row, it's game over. - Endless arcade mode. See how high you can score! - Compatible with keyboards and PS4/Xbox 360/Xbox One controllers. About The Game ViviFon: - Pick the
