I'm very curious as to how I'll be playing this game. It's a bit of a departure from most games I've played thus far, but my excitement continues to grow as I get deeper into the game. From what I've read so far, this game will be very different from any other MMO, but that could be a good thing. I've done well at the tabletop RPG side of MMOs before. I had a lot of fun at

What's new:

Play as a Bard, Crowned Knight, or Noble in this epic fantasy adventure which combines an unparalleled online multiplayer experience with traditional single-player gameplay. You and your party of adventurers will undertake epic quests in the world of Eca'sse and take destiny into your hands. Reclaim your birthright as the heir to power, become a character with a unique story of your own... or perform heroic deeds of your own and make history! Escape from North Corelle Prison in an action-packed adventure as PlayStation3 system user Ahab. The story itself is very short in length, but as you explore this world you will begin to realize that there are more than meets the eye. Egalitarian in the fact that you get to play as a man or a woman, or can even choose to be female again after having killed off your first character, you will start as the fleeing prisoner, Ahab, and after dealing with a little interference from the young children (boy and girl), you will end up the new district governor. The story takes place in the streets of Wolfville, a city that has seen a great deal of societal change. Whilst the rich and powerful have migrated to the new slick city of Rin Rock, where luxury and high technology has engulfed, the remaining citizens thrive as the rest of the surroundings have fallen into decay. You must use your acumen and charisma to aid the people who have fallen to their knees. Help them re-build the city they once knew and you may just keep your head from being removed... From the creators of Firefighter Sam and Save Mary comes a fast-paced shooter that will thrill children and adults alike. Enjoy frantic gameplay as you are joined by teammates in a game of hide and seek with criminals. You can use hostages to your advantage as you surprise the criminals and dispose of your enemies! There are only four different power-ups you can use to your advantage, but they work in clever ways. Depending on how you use them, you can turn foes into working allies and create deadly traps. Take full advantage of your surroundings and use the environment in explosive new ways, whether it be a snare or weapons platform. Complete each level and collect the keys to raise your previously unknown police cruiser. Lola, your main character, is a very simple teenage girl. She tends to wear her backpack and

carry her recently stolen wallet with her. Lola has always dreamed of being a police officer and currently lives with her family while serving in the police academy. Lola
