The mystery begins when Ali Mardan, on the way to his honeymoon, is teleported to the Middle Ages during the time of Merlin and the Wicked Morgana! It is up to you, the little rascal, to solve the problem and bring back Excalibur to the King! About Ali Mardan: Ali Mardan is the joyful, mischievous son of Khan Daei and Faerie MacGill. Always hearing from Faerie MacGill that his mother loves him more than anything, Ali Mardan is constantly looking for ways to get her attention and make her laugh, often by making trouble in the kitchen and in the living room. When a letter from Faerie MacGill arrived, asking Ali Mardan to go on the vacation to Scotland, where his father currently works, Ali Mardan was delighted. But he has no intention of going to the large city, but to his Great, Great, Great, Great, Great, Great Grandfather Khan Daei's castle, where his grandmother lives.

Finally, Khan Daei sends a mother with a son, as well as other family members, to accompany Ali Mardan on his trip. In the end, Ali Mardan also sets his eyes on the pumpkin piece of his grandmother, and hopes to bring it to Scotland. The journey will be not as simple as he thought, but will be full of fun surprises... Ali Mardan- The mischievous little boy, who enjoys causing trouble, as well as making trouble for himself! Ali is absolutely not interested in anything his mother tells him not to do, and then usually does what she tells him not to. However, there is no escaping from the constant mother's love. Khan Daei- Ali's grandfather, a wonderfully wise person, who loves his grandson and proudly calls him "the king of the castle"! Khan Daei is still in love with his wife, Faerie MacGill, and he has always hoped that his son will come to the same mind as his beloved Faerie MacGill, and eventually marry her. Faerie MacGill- Ali's grandmother, who is a strong, wise woman. It has long been she who kept his grandfather in check, and all that the grandfather has since learned has been learned from her. In the medieval era, a land of natural beauty and simple people was tormented by shadows of darkness. The evil beasts living in those shadows spread to the borders of the Province World, where they started a war against the Kingdom of Farquol. The ancestors of the Farquol Kingdom, which was the only stronghold against the shadows, were called upon to protect the homeland. Because of a failure on the part of the Farquol Kingdom, they went into exile and when they returned, it was not to the Province World but to a different territory. The good-natured people of that country turned out to be kind and welcoming, however the fate that faced them was, without a doubt, much worse than the Province World. Far too many people died in those endless battles with the darkness; the black clouds that protected the darkness became black and would never go away. The Province, the only safe and peaceful place in the province world, fell into shadows. It was time to return to their original home, the Province World. Defend your home against invading Darkness Totems! In this story-driven beat 'em up, the player character Josh is the descendant of all the Farquol Kingdom warriors. In a world where monsters are spreading all around, he has to go from town to town to fight and defeat the monsters and become the hero of the province world! Playing the game is a special privilege. By fighting, recruiting, and unlocking more allies, the player will become stronger and more powerful to help the world. Victory is certain, because all they have to do is to defend the Province World. This game is incredibly easy to play, but the challenge comes from leveling up with the allies and learning new moves. Endless fun for everyone In Josh Journey: Darkness Totems you will find no bloodshed, no boss battles, no story. All we asked from the players is to defend the Province World from monsters, darkness totems, and create beautiful artwork. In this beat'em up the player is just Josh, and the only one among the four characters; it's a 2D side-scrolling game where the main feature is fighting the enemies, but that's just the beginning of this game. You will be called upon to find a lot of collectibles as you continue playing, fight against enemies, find powerful moves, and even learn the secrets hidden inside. We hope players will enjoy the journey and will participate in the artwork creation process in the following comments section c9d1549cdd

World War 2 was a time of catastrophic events. While America struggled against Nazi Germany, Japan was expanding its territory with ease. In Europe, the war lingered on with no clear outcome. A battered USSR faced the Red Army, while the allies did all they could to reverse the tide of this new great power. Waterloo, Berlin and Ostend fell, but the war

dragged on and on. In North Africa, Allied forces fought to win this uncertain campaign, while their Italian allies faced a dangerous German counter-attack. In the Western Desert, the British side won over the Germans and secured a foothold in the region. But how long would it be until the Germans were back? In the Pacific, the Japanese forces clashed on the small island of Guadalcanal and in New Guinea. As the Japanese destroyed more of their country's economy, the war dragged on and on. The Allied strategy was solid and the enemies were on the run. Allied losses were high, but their cause was just. The Japanese were confident, and pushed on. They were making progress on many fronts, but their advantage was a thing of the past. They were caught in a war they couldn't win, slowly but steadily growing weaker. The war dragged on for years with no clear end in sight. In the end, three more years of horror were to come. Terrible news came from Europe. The Allies were being pushed back and their numbers were quickly diminishing. In North Africa, the British and American forces met head to head. While the British stood firm and pushed the Germans back, the Americans began to withdraw and turn eastward, looking for new trouble to face. The Japanese were in full control of the eastern Pacific and appeared unstoppable, while their allies in the south were caught and surrounded. In 1941, the allies were in trouble. The Nazis were striking at them from three different directions and they were being slowly pushed back. The British and the Americans fought fiercely to the end, but it was to no avail. In the Pacific,

the Japanese simply pushed their way through. Their allies faced complete disaster. 1942 turned out to be a crucial year for the fight. The allies were recovering in the European Theatre, but the Japanese still controlled the Pacific. Germany had occupied a large portion of the Soviet Union, while the Germans continued to push back the allies in the Mediterranean. Italy continued to fight for its colonies in North Africa. The allies were losing in the
