Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Not sure what you're talking about, enjoy the links they've posted. Actually I'm talking about the situation you get yourself into trying to get free robux. And no, there are no free robux generators without any hidden ties. Click to expand... No kidding, to be honest. I didn't actually notice that is was an ad, but it's probably there as a joke, and the reason why I was so confused... However, I did notice one funny thing that you pointed to: "This has happened several times since, such as... They just thought it was funny to say that people who want to get free robux by tricking our games are similar to the people that make flamebait threads on the forums. I'm sorry I didn't respond to your post before I left. But I think it was because I didn't want to waste my time if it was a waste of time, and I tend to be over-critical of things in these forums. In my opinion, it's like the whole concept of "stalking" a person on the internet because they're related to the post you're trying to read about and you're trying to find their opinions about certain subject matter, and you're just blindly looking at people's posts to see if they said something about it without actually reading the post itself. And no, it's not us who are judging people for the things they do. I agree with you that we're not "judging" them. But if you think of it like that, then it makes sense, right? By the way, I found out by accident that it's the same company which a certain person was talking about earlier. @Escudo Let's just say that I'm always like that on the internet. In general, I'm a little extreme about everything. That's how I am. But, sorry, I just don't think your analogy is good. Let me explain: stalking someone on the internet, or chatting to them face-to-face, online, or whatever, like, literally picking them up from their home and watching them walk and talk to their parents, does not make you cool. It makes you a creepy
