**Age Of Empires Definitive Edition Build 27805-CODEX**

Surprisingly, no group of hackers has been able to break exclusive games in the store of the new operating system since the release of Windows 10, but now CODEX is already divided. Unable to access the games, the cracker was unable to unlock them. While it doesn't look like it's related to the operating system itself, this series of hacks shows it's more likely to be related to the Windows 10 store and other apps installed on the new operating system. At the moment there is no concrete information on what exactly went wrong, but this is not the first time crackers have failed
