I have added a template named ShoppingCart.html in app.html, under the ion-content which is the CartList with some items from the DB, and one ion-content in which there is a button with some product images, which includes CartCount. The button is also a button, it is using the ionic button component and not an angular one. I want to set the button set the button of my template, the part of my HTML that I do not know how to set the image for the button: c6a93da74d
