i have an older copy of aoe 2 hd and i just tried upgrading to the aoe 2 gold edition patch. it won't run and just displays the patch for aoe 2 hd and fails to run. any suggestions on how to make it work? i bought aoe ii gold edition hd, the patch worked fine, but for some reason, the patch did not get installed on this new version of the game, so it didn't work. i have reinstalled the game several times with the discs from previous versions, but i am getting the same error every time, that the patch has not been installed. any ideas? someone asked if the game was runnable on a windows 8 machine using an iso, and i didn't realise it was a new question, but i can answer that too. windows 8 is based on windows nt, which in turn is based on windows 3.1. to run age of empires you need a windows 3.1 or older operating system, and i think it's safe to say that windows 8 is not one of them. i don't know if it's possible to run windows 8 from an iso, but i'm guessing you'd have to have it boot to cd in order to do that. this link will help you. it is a complete tool to install, repair, and optimize your windows. it will allow you to run your favorite games again. > age of empires gold edition crack hd patch i have the same issue as the previous poster, when i launch the game i get a popup that says; this game requires cd and it will not be able to run. i'm running windows 7 and have installed the game from the disc. i have searched online but can't find a solution. the fact that there is an iso file to download doesn't help. i can't play aoe 2 online. is there an extra patch or a fix for this? i need aoe 2 to work online. it is the only age of empires 2 game that i play.

Age Of Empires Gold Edition Crack HD Patch
