there is a lot of controversy over cannibal
holocaust. the first complaint is that its too brutal.
the second is that its a marketing ploy. i think
both of these statements are accurate. cannibal
holocaust is violent and has a lot of nudity. but
that's not all. this movie is also about the
anthropology and history of cannibals. it also
makes a statement about the way that capitalism
works. it also has a lot to say about the way that
we treat those who are different from us. but i
would not consider this a film that is too harsh.
instead, it's a film that is too pointed and requires
a lot of thought to fully comprehend. while
cannibal holocaust has its faults, it also has a lot
to offer. it's a film that should be seen by anyone
who appreciates the art form of cinema. cannibal
holocaust was shown in the united states as a
"triple feature" with peeping tom (1971) and
dressed to kill (1980).[3] a video release of the
film was released by lions gate home
entertainment in 1998. cannibal holocaust gained
a small cult following in europe in the 1980s.[6] a
number of home video releases of the film have
been made over the years, including the anchor
bay films dvd released in 1997.[7] the biggest

difference between the british and american versions is the addition of new footage. in the original british version, scenes with the women are excised, and some scenes of the original version were added.[5] in the 1980s, the film was shown on tv in the uk with a new music score. the same edit of the film exists in that version, but the first half of the film is sped up, the ending of the film is extended, and the music score is replaced with the one used in the anchor bay films version.[10] in 2007, the film was made available on video in the uk through the vivid entertainment label.[9]

in 2005, christopher null on dvd talk gave the film 3 stars, and wrote, 'in the end, cannibal holocaust is a guilty pleasure. at its worst, the film is indistinguishable from the trash it's trying to emulate. but at its best, it's a visceral experience that challenges the viewer to think about his or her own beliefs and society in a way that is more than the typical documentary. it's a film that is a little too long, and a little too intense, but it's also

just about the most fun to watch that's come out of the horror genre in quite a while.' the review concludes by calling cannibal holocaust 'a really bad movie'.[14] in 2005, mike vago on dvd talk gave the film 3 stars, and wrote, 'of all the 'traveling cinema' horror films that have become staples of the b-movie industry, cannibal holocaust may be the one that best fits that description. the story is fairly classic, but the visual style and production values are of a much higher order. the film does have its problems, but cannibal holocaust is well worth a look if you enjoy films that challenge your thinking.' the review concludes by calling cannibal holocaust 'a really bad movie'.[15] in 2005, ray vicker on dvd talk gave the film 3 stars, and wrote, 'cannibal holocaust is a movie that is a lot like porno holocaust, except for one thing - it is not a movie about sex. cannibal holocaust is a movie about violence. perhaps it is the expression of violence that makes it so terrifying. perhaps its the sheer quantity of violence. for whatever reason, it made a profound impression on me. i can't recall another film that had the effect it did. if you want to see a movie that is so bad it's good, check out

cannibal holocaust.' the review concludes by calling cannibal holocaust 'a really bad movie'. [16]
