4.81 / 5 (59 votes) Recommended for YouBussid Pro Apk **RFS - Real Flight Simulator** is a premium simulation video game for mobile devices by the developer, *RORTOS*. It's a flight simulator that provides players with a **unique and realistic** flying experience as they **take control** and be a **pilot** of an aircraft used for **airline transport services** around the world. RFS offers a **Pro** subscription plan, and if you avail of it, you get to unlock and gain access to other **special features** available in the game. You have **advanced flight plans** that let you set the time of day, aircraft parameters, and even weather conditions. On top of that, you can have **real-time traffic updates** for the **35 largest airports** in the world, with over 40,000 flights every day. Overall, RFS - Real Flight Simulator offers a unique flight simulation experience that is worth checking out. Its maps and airplane models are quite **detailed and realistic**. Plus, the extensive flight plan options and real-time air traffic updates add to the sense of **realism and authenticity** in the game. If you're a fan of flight simulators, this game is not one to be missed. Highly recommended. Hence these types of games will bring a lot of enjoyment in your free time. There are many different flight simulators available in the market and RFS real Flight Simulator is one of them. RFS Real Flight Simulator was developed by RORTOS. It is a Flight simulation game. In this game you will have control over different aircrafts. You will be able to enjoy every element of the airport whether it is related to transportation or engineering purposes. RFS real Flight Simulator is a simulation game in which you will be able to control your own aircraft industry. In this game, you will be able to play as a pilot and you will also be able to keep an eye on different activities taking place at the airport. You will have your own airport and in this airport you will be able to keep a track of all the other flights that have been in the air. You will also be able to navigate with these flights. Well, you will have to buy everything in the RFS real flight simulator. If you get short of fuel then you will have to refuel your plane, for this you will need an amount of coins or money. If you have the required amount of money then you can click on the fuel track and activate it. After that you will be able to select the quantity of fuel that you want. By selecting the quantity the fuel will start getting into your plane and you will be able to stop it whenever you want. In RFS real Flight Simulator you will be able to manage your own airport. In this airport you will keep an eye on the departure and arrival of different flights and you will also have to take care of the taxiway in which the passengers will come and go. The airport consists of a complete real runway and you will be able to see their journey in this game. You will also be able to keep an eye on the flights that are still in the air. You will also be able to navigate with them. As you will get the realistic experience of being a pilot hence you will also have to face various difficulties in your flight. You will have to deal with different weather change like thunderstorms and lightning. You will also have to take care of the Air Traffic so that you do not get into any other plane. You also have to face various failures in your craft and most of all you will face the issue of fuel shortage. So be careful and use your different tactics to cope up with these situations. In the modified version of RFS Real flight simulator you will get an unlocked gameplay. In the standard version, you will receive only one to two plane which you can use. But to get all the Planes unlocked. You will have to get the pro version of this game but with the help of this modified version you will get the pro version for free and hence all the Planes will be provided to you unlocked. In this version, you will also not have to face any difficulties regarding the annoying ads.
