How to Download Cricket 22 and Play with Real Teams on PC

Cricket 22 is one of the most anticipated cricket games of the year, offering a realistic and immersive simulation of the sport. Whether you are a fan of the Ashes, the Big Bash, The Hundred, or any other international or domestic competition, you can enjoy them all in Cricket 22. But how can you download the game on your PC and play with real teams? In this article, we will show you how to do that in easy steps.

What is Cricket 22?

A brief introduction to the game and its features

Cricket 22 is a cricket game developed by Big Ant Studios and published by Nacon. It was released on December 1, 2021 for Windows, PlayStation, Xbox, and Nintendo Switch. The game features a variety of modes, including a narrative-driven career mode, a challenger mode, a real-time multiplayer mode, and a custom tournament mode. The game also boasts of new innovations, such as improved bowling and fielding controls, motion-captured animations, an all-new commentary team, and stunning graphics with ray tracing elements.

The official and unofficial teams available in the game

Cricket 22 delivers the most complete and in-depth cricket experience on your PC, with fully-licensed teams from Australia, England, The West Indies, New Zealand, and Ireland. You can also play with unofficial teams from other countries, such as India, Pakistan, South Africa, Sri Lanka, Bangladesh, Afghanistan, Zimbabwe, and more. The game also features both men's and women's teams across all formats of the game.

How to Download Cricket 22 on PC

The requirements and steps to download the game from the Epic Games Store

The easiest way to download Cricket 22 on your PC is through the Epic Games Store, a digital distribution platform that allows you to buy and play games online. To do that, you need to follow these steps:

1. Create an Epic Games account or sign in with your existing one.
2. Download and install the Epic Games Launcher on your PC.
3. Open the launcher and go to the store section.
4. Search for Cricket 22 and click on it.
5. Click on the buy button and complete the payment process.
6. Once the purchase is confirmed, go to your library section.
7. Select Cricket 22 and click on install.
8. Wait for the download and installation to finish.
9. Launch the game and enjoy!

The minimum requirements for playing Cricket 22 on your PC are:

OS	Processor	Memory	Graphics	DirectX	Storage
Windows 10 (64-bit)	Intel Core i5-6500 or AMD Ryzen 5 2600	8 GB RAM	NVIDIA GeForce GTX 1050 Ti or AMD Radeon RX 560	Version 12	35 GB available space

The alternative ways to download the game from other platforms or websites

If you don't want to use the Epic Games Store, you can also download Cricket 22 from other platforms or websites. However

If you don't want to use the Epic Games Store, you can also download Cricket 22 from other platforms or websites. However, you need to be careful and avoid any illegal or unsafe sources that may harm your PC or violate the game's terms of service. Some of the alternative ways to download Cricket 22 are:

- **Steam:** Steam is another popular digital distribution platform that offers a wide range of games, including Cricket 22. You can buy and download the game from Steam by following a similar process as the Epic Games Store. You need to create a Steam account, download and install the Steam client, search for Cricket 22 in the store, buy and install the game, and launch it from your library.
- **Origin:** Origin is a digital distribution platform owned by Electronic Arts (EA), one of the publishers of Cricket 22. You can buy and download the game from Origin by creating an Origin account, downloading and installing the Origin client, searching for Cricket 22 in the store, buying and installing the game, and launching it from your library.
- **Cricket 22 Official Website:** You can also buy and download the game directly from the official website of Cricket 22. You need to visit the website, click on the buy now button, choose your preferred platform (PC), select your payment method, complete the transaction, and follow the instructions to download and install the game.

How to Play with Real Teams on PC

The steps to select and customize your preferred teams in the game

Once you have downloaded and installed Cricket 22 on your PC, you can start playing with real teams in various modes. To do that, you need to follow these steps:

1. Launch the game and choose your preferred mode (career, challenger, multiplayer, or custom tournament).
2. Select your team from the list of available teams. You can filter the teams by country, format, gender, or license.
3. Customize your team by changing the players, kits, logos, sponsors, or stats. You can also create your own custom teams using the academy feature.
4. Save your team and start playing!

The tips and tricks to improve your gameplay and performance

Cricket 22 is a challenging and realistic game that requires skill and strategy to master. Here are some tips and tricks to help you improve your gameplay and performance:

- Practice your batting and bowling skills in the nets or in the practice mode. Learn how to use the different shots, deliveries, and controls effectively.
- Use the match preview feature to analyze the pitch conditions, weather forecast, toss outcome, and opposition strengths and weaknesses. Plan your tactics accordingly.
- Adjust your camera angle and difficulty level according to your preference and comfort. You can also customize your controller settings and key bindings.
- Use the DRS (Decision Review System) wisely. You have a limited number of reviews per innings, so use them only when you are confident or desperate.
- Enjoy the game and have fun!

Conclusion

A summary of the main points and a call to action

In conclusion, Cricket 22 is a fantastic game that lets you play with real teams on your PC. You can download the game from various platforms or websites, such as Epic Games Store, Steam, Origin, or Cricket 22 Official Website. You can also select and customize your preferred teams in different modes of the game. Moreover, you can improve your gameplay and performance by following some tips and tricks. If you are a cricket lover, you should definitely try Cricket 22 today!
