NewBlue Titler Pro 2.0: A Powerful and Flexible Titling Software for Video Editors

If you are looking for a fast, easy and reliable way to create stunning titles and graphics for your video projects, you might want to check out NewBlue Titler Pro 2.0. This software is designed to work inside your preferred editor, such as Adobe Premiere, After Effects, Avid Media Composer, Grass Valley Edius, Magix Vegas Pro and Blackmagic Design DaVinci Resolve[⁴].

NewBlue Titler Pro 2.0 is the latest version of the industry standard in titling software, which delivers exceptional production value with 3D animated titles and motion graphics[⁴]. You can choose from over 700 professionally crafted designs, or customize your own with shape, color, animation and more[⁴]. You can also import existing designs from EPS and PSD files[⁷], or convert After Effects titles with the After Effects Title Converter[⁴].

One of the features that sets NewBlue Titler Pro 2.0 apart from other titling software is its re-tooled NTX engine, which offers faster performance and next-level flexibility[⁴]. The new engine allows titles to be stored using less memory while improving image quality and achieving real-time playback[⁴]. You can also enjoy simplified multi-title management and intelligent features such as style breaks, object following and looping assets[⁴].

NewBlue Titler Pro 2.0 is compatible with Windows 64-bit operating systems and requires a minimum of 2 GB RAM, 250 MB hard disk space and a graphics card that supports OpenGL 2.1 or higher[⁷]. You can download a free trial version from the NewBlue website[¹], or purchase the full version for \$299[⁴]. If you want to get more features and templates, you can also opt for the Ultimate edition for \$499[⁴], or the TotalFX 360 annual subscription for \$299[⁴].

Whether you are working on a live broadcast, a documentary, a corporate presentation or a high-end production, NewBlue Titler Pro 2.0 can help you create professional titles with minimal effort. It is a powerful and flexible titling software that can take your graphics to the next level.

If you want to learn more about how to use NewBlue Titler Pro 2.0, you can watch the tutorials on

the NewBlue website, or read the user guide. You can also join the NewBlue community and get support from other users and experts.

NewBlue Titler Pro 2.0 is not the only product that NewBlue offers. You can also explore their other products, such as Elements, Essentials, Filters, Transitions and Stylizers, which provide a variety of effects and tools for video editing. You can also browse their graphics templates, which include hundreds of video overlay designs for different genres and themes.

NewBlue is a company that has been developing innovative video solutions since 2006. Their products are used by millions of people worldwide, from hobbyists to professionals, and from broadcasters to filmmakers. Their mission is to help you tell your story with creativity and ease.

So, what are you waiting for? Download NewBlue Titler Pro 2.0 today and see for yourself how it can transform your video projects with exceptional titles and graphics.
