What is Project Makeover?

Project Makeover is a game developed by Bubblegum Games, a studio that specializes in creating casual games for mobile devices. The game was released in November 2020 and has since gained millions of downloads and positive reviews from players around the world. The game is available for both Android and iOS devices, and you can download it for free from the Google Play Store or the App Store.

The gameplay of Project Makeover

The gameplay of Project Makeover is simple and addictive. You will start by choosing a client who needs your help to improve their appearance and confidence. You will then have to complete various tasks to makeover your client, such as cutting their hair, applying makeup, choosing outfits, and accessorizing.
