PUBG Mobile India APK Download Link Appears on Official Website Check

If you are a fan of PUBG Mobile, you might have been disappointed when the popular battle royale game was banned in India last year due to security and privacy concerns. However, there is good news for you as the game is making a comeback in the country with a new name and a new avatar: Battlegrounds Mobile India.

Battlegrounds Mobile India is a rebranded version of PUBG Mobile that is exclusively designed for Indian players. The game promises to offer a world-class multiplayer gaming experience with various features and improvements. In this article, we will tell you everything you need to know about Battlegrounds Mobile India, including how to download and install it on your Android device, what are the system requirements and compatible devices, what are the features and differences compared to PUBG Mobile, and what are some tips and tricks to play it better.

What is PUBG Mobile India and why was it banned in India?

PUBG Mobile India was the Indian version of PUBG Mobile, a popular online multiplayer battle royale game developed by Tencent Games, a Chinese company. The game was based on the PC game PlayerUnknown's Battlegrounds (PUBG) developed by Krafton, a South Korean company.

PUBG Mobile India was one of the most played mobile games in the country, with millions of active users. However, in September 2020, the Indian government banned PUBG Mobile India along with 117 other Chinese apps, citing national security and data privacy issues. The government claimed that these apps were engaged in activities that were prejudicial to the sovereignty and integrity of India.

What is Battlegrounds Mobile India and how is it different

from PUBG Mobile?

Battlegrounds Mobile India is a new mobile game developed by Krafton, the same company that owns PUBG. The game is a customized version of PUBG Mobile that is tailored for Indian players. The game is set in a virtual world where players can battle it out in various modes and maps.

Battlegrounds Mobile India is different from PUBG Mobile in several ways. Some of the differences are:

- The game is only available for players in India and requires a stable internet connection.
- The game has a new logo and a new name that reflects the Indian identity.
- The game has green blood instead of red blood to reduce the violence and gore.
- The game has a disclaimer that it is a simulation game set in a virtual world and does not stand for real life.
- The game has age restrictions and parental consent requirements for players under 18 years old.
- The game has data protection measures that ensure that the personal information of players is stored and processed on servers located in India and Singapore.
- The game has regular content updates and collaborations with Indian celebrities and influencers.
