# Idolmaster SideM Growing Stars APK: A Guide for Fans of Male Idols

If you are a fan of male idols and rhythm games, you might have heard of Idolmaster SideM Growing Stars, the latest game in the popular Idolmaster franchise. This game lets you become a producer of a newly established idol agency and work with 49 idols in 16 units to make them shine on stage. In this article, we will tell you everything you need to know about this game, from how to download it to how to play it and what to expect from it.

## What is Idolmaster SideM Growing Stars?

### A new game in the Idolmaster franchise

Idolmaster SideM Growing Stars is a new game developed by Bandai Namco Entertainment Inc. and released on October 6th, 2021 for iOS and Android devices. It is based on Idolmaster SideM, a spin-off of the Idolmaster series that focuses on male idols with various backgrounds and personalities. It is also the final mobile game to release during the 2nd Vision era of the franchise.

### A rhythm game with 49 idols in 16 units

In this game, you can enjoy a variety of songs from Idolmaster SideM in a royal road rhythm game full of exhilaration and speed. You can choose from four difficulty levels and tap along with the notes on the screen to score points and clear songs. You can also customize your live unit with up to five idols from different units and use their skills and cut-ins to boost your performance.

### A producer simulation with stories and interactions

As a producer, you can also experience the stories and interactions of the idols in this game. You can watch the main story where you meet, grow and play an active role with the idols, as well as their individual episodes that show their charm and backstory. Some stories are fully voiced and animated with rich 2D graphics that convey their expressions and movements. You can also text and call the idols within a LINE-like app and enjoy their casual conversations.

## How to download Idolmaster SideM Growing Stars APK?

### The official way: Google Play Store

2.5 GB of free space to run.

### The alternative way: QooApp

If you are unable to access the Google Play Store or want to download the game from a different region, you can use QooApp, a platform that provides Asian games and comics to users worldwide. You can download QooApp from this link: [10](<https://apps.qoo-app.com/en/app/880>). Then, you can search for Idolmaster SideM Growing Stars in the app or use this link: [9](<https://apps.qoo-app.com/en/app/14994>). After that, you can tap on the download button and install the game on your device. You may need to enable unknown sources in your settings to allow QooApp to install apps.

## **The requirements and precautions**

Before you download Idolmaster SideM Growing Stars APK, you should be aware of some requirements and precautions. First, you need to have a stable internet connection to play the game, as it does not support offline mode. Second, you need to create a Bandai Namco ID account and link it to the game to save your progress and access some features. Third, you need to agree to the terms of service and privacy policy of the game and respect the rules and etiquette of the community. Fourth, you need to be careful of unofficial sources and modded versions of the game that may contain malware or violate the game's policies.

## **How to play Idolmaster SideM Growing Stars?**

### **The main screen and menus**

When you launch Idolmaster SideM Growing Stars, you will see the main screen where you can access various menus and functions. You can swipe left or right to change the background image and the idol who greets you. You can also tap on the idol to hear his voice and see his expressions. On the top left corner, you can see your producer name, level, stamina, coins, jewels, and tickets. On the top right corner, you can see the notifications, settings, help, and shop icons. On the bottom, you can see the live, story, communication, idol, office, gacha, event, and mission icons.

### **The live mode and songs**

The live mode is where you can play the rhythm game and enjoy the songs from Idolmaster SideM. You can tap on the live icon on the main screen to enter this mode. You can choose from four categories of songs: original songs, cover songs, event songs, and special songs. You can also filter the songs by unit, genre, difficulty, etc. Each song has four difficulty levels: easy, normal, hard, and expert. You can also adjust the speed, sound, note size, etc. in the settings before playing. To play a song, you need to spend stamina that recovers over time or by using items. You can also use auto-play or skip tickets to clear songs without playing.

### **The story mode and episodes**

The story mode is where you can watch the stories and episodes of the idols in Idolmaster SideM Growing Stars. You can tap on the story icon on the main screen to enter this mode. You can choose from two types of stories: main story and idol episode. The main story is divided into chapters that follow the progress of your agency and its idols. The idol episode is divided into units that show the individual stories of each idol. Some stories are fully voiced and animated with rich 2D graphics that convey their expressions and movements. To unlock stories, you need to clear songs or meet certain conditions.

### **The communication mode and features**

The communication mode is where you can interact with the idols in Idolmaster SideM Growing Stars. You can tap on the communication icon on the main screen to enter this mode. You can choose from three features: call, message, and photo. The call feature lets you call an idol and hear his voice and reactions. The message feature lets you text an idol within a LINE-like app and enjoy his casual conversations. The photo feature lets you take photos of an idol in various poses and outfits and save them in your album.

# What are the features of Idolmaster SideM Growing Stars?

## Rich 2D animation and full voice

hear their voices in high quality and with various emotions and tones. The game also features some famous voice actors such as Kenichi Suzumura, Taku Yashiro, Shouta Aoi, and more.

## 3D live function and cut-ins

Another feature of Idolmaster SideM Growing Stars is its 3D live function and cut-ins that enhance the live mode. The game allows you to switch between 2D and 3D views during the live mode and see the idols perform on stage in 3D models. You can also zoom in or out, change the angle, or focus on a specific idol. The game also uses cut-ins to show the idols' close-ups and special effects when they activate their skills or reach a certain point in the song. The cut-ins are dynamic and vary depending on the song, unit, and idol.

## LINE-like app and photo feature

A third feature of Idolmaster SideM Growing Stars is its LINE-like app and photo feature that add more fun to the communication mode. The game uses a LINE-like app to let you text and call the idols within the game. You can see their profile pictures, status messages, stickers, emojis, and more. You can also receive notifications from them when they have something to say or ask you. The game also has a photo feature that lets you take photos of the idols in various poses and outfits. You can choose from different backgrounds, filters, frames, and stickers to decorate your photos. You can also save them in your album or share them with other players.

# What are the reviews of Idolmaster SideM Growing Stars?

## The pros: clean UI, generous currency, gorgeous art, etc.

Many players have praised Idolmaster SideM Growing Stars for its pros, such as its clean UI, generous currency, gorgeous art, etc. The game has a simple and intuitive UI that makes it easy to navigate and play. The game also gives a lot of free currency such as coins, jewels, and tickets that can be used to play songs, gacha, events, etc. The game also has a gorgeous art style that showcases the idols' designs and expressions. The game also has a lot of other pros such as its catchy songs, diverse units, smooth gameplay, etc.

## The cons: lack of 3D MVs, barebones content, etc.

However, some players have also criticized Idolmaster SideM Growing Stars for its cons, such as its lack of 3D MVs, barebones content, etc. The game does not have 3D MVs for its songs unlike some other games in the franchise. The game also has a barebones content that lacks some features such as events, gacha banners, costumes, etc. The game also has some other cons such as its bugs, glitches, server issues, etc.

## The verdict: a promising game for fans of male idols

In conclusion, Idolmaster SideM Growing Stars is a promising game for fans of male idols and rhythm games. It has a lot of features that make it enjoyable and engaging such as its rich 2D animation and full voice, 3D live function and cut-ins, LINE-like app and photo feature, etc. It also has some drawbacks that need to be improved such as its lack of 3D MVs, barebones content, etc.

However, it is still a new game that has a lot of potential to grow and improve in the future. If you are interested in this game, you can download it from the Google Play Store or QooApp and give it a try.
