Facebook URL Download: How to Save Videos from Facebook Easily

Facebook is one of the most popular social media platforms in the world, with billions of users and millions of videos uploaded every day. Whether you want to watch funny clips, educational tutorials, inspirational stories, or live streams, Facebook has something for everyone.

But what if you want to save some of these videos for offline viewing, sharing, or editing? Unfortunately, Facebook does not offer a built-in option to download videos directly from its website or app. You can only save them to your account and watch them online.

That's where Facebook URL download comes in handy. In this article, we will show you what Facebook URL download is, why you need it, and how to use it with three different online tools. Let's get started!

Introduction

What is Facebook URL download?

Facebook URL download is a process of downloading videos from Facebook using their URLs or links. A URL is a unique address that identifies a specific web page or resource on the internet. For example, this is the URL of a video on Facebook:
<https://www.facebook.com/watch/?v=1234567890>

To download a video from Facebook using its URL, you need to use a third-party tool that can extract the video file from the link and save it to your device. There are many online tools that can do this for free, without requiring any software installation or registration.

Why do you need to download videos from Facebook?

There are many reasons why you might want to download videos from Facebook, such as:

- You want to watch them offline when you don't have internet access or data plan.
- You want to share them with your friends or family who don't

have Facebook accounts or access.

- You want to edit them for personal or professional purposes, such as adding subtitles, music, effects, etc.
- You want to backup them in case they get deleted or removed by Facebook.
- You want to enjoy them on a bigger screen or a different device.

Whatever your reason is, downloading videos from Facebook is easy and fast with the help of online tools. Let's take a look at some of the best ones available.

How to download videos from Facebook using online tools

Facebook Video Downloader Online - Download Facebook Videos

Features

This is one of the most popular and reliable online tools for downloading videos from Facebook. It has the following features:

- It supports downloading videos from any public Facebook account, page, group, or event.

FAQs

1. **Is it legal to download videos from Facebook?**

The answer depends on the source and purpose of the video. Generally, it is legal to download videos from Facebook for personal use, as long as you do not violate the terms of service of Facebook or the copyright of the video owner. However, it is illegal to download videos from Facebook for commercial use, such as selling, distributing, or monetizing them, without the permission of the video owner or Facebook.

2. **How can I download videos from Facebook on my mobile device?**

The process of downloading videos from Facebook on your mobile device is similar to the one on your computer. You can use any of the online tools mentioned in this article, or you can use a mobile app that can do the same. Some of the popular apps for downloading videos from Facebook are:

- Video Downloader for Facebook - Android
- Video Downloader for Facebook - iOS
- Video Downloader for FB - Android
- Video Downloader for FB - iOS

Just make sure you have enough storage space on your device and a stable internet connection before downloading videos from Facebook.

3. **How can I download private videos from Facebook?**

Private videos are videos that are only visible to a specific audience, such as friends, groups, or followers. To download private videos from Facebook, you need to use a tool that can access the video source code and extract the video file from it. One of the tools that can do this is:

- Getfvid - Private Video Downloader

To use this tool, follow these simple steps:

1. Go to the private video you want to download on Facebook and right-click on it.
2. Select "Show video URL" and copy the URL that appears.
3. Go to <https://www.getfvid.com/private-downloader> and paste the URL into the input box.
4. Click on "Download" and wait for the tool to process the video.
5. Select the format and quality you prefer and click on

"Download" to save the video to your device.

Note that this tool only works for private videos that you have access to. You cannot download private videos that you are not authorized to view.

4. **How can I download 360-degree videos from Facebook?**

360-degree videos are videos that allow you to view every angle of a scene by moving your mouse or device. To download 360-degree videos from Facebook, you need to use a tool that can preserve the 360-degree effect and quality of the video. One of the tools that can do this is:

- VidFrom - 360 Video Downloader

To use this tool, follow these simple steps:

1. Go to the 360-degree video you want to download on Facebook and copy its URL from the address bar or the three-dot menu.
2. Go to <https://vidfrom.com/360-video-downloader/> and paste the URL into the input box.
3. Click on "Download" and wait for the tool to process the video.
4. Select the format and quality you prefer and click on "Download" to save the video to your device.

Note that this tool only works for 360-degree videos that are publicly available. You cannot download 360-degree videos that are private or restricted.

5. **How can I edit videos downloaded from Facebook?**

If you want to edit videos downloaded from Facebook, such as adding subtitles, music, effects, etc., you need to use a video editing software or app that can handle the format and quality of the video. Some of the popular video editing software and apps are:

- VLC Media Player - Free and open-source software for playing and editing various video formats.
- iMovie - Free software for Mac and iOS devices for creating and editing movies.
- Filmora - Paid software for Windows and Mac devices for making and editing professional-looking videos.
- KineMaster - Paid app for Android and iOS devices for

editing videos with multiple layers, transitions, effects,
etc.
